We are authorized to announce Mr. W. W.

WEBSTER, nominee of the People's

Party, as a candidate to represent Hick-

man, Fulton and Owen counties in the

next Session of Kentucky.

The fact that aggregated capital

is enabled to control the price of

farm products to the disadvantage

of the farmers is a great grievance,

and any and every measure that

in any way promises a remedy

receives, and should receive

the most careful consideration. But, at

the same time, it should equally and

honestly be considered that any

aggregated remedy is not worse than

the disease. There is little doubt

but that the expenditures made for

capital seeking an investment in

the Florida sugar farm above

referred to is the certainty of the

Government paying to them the

2 cents a pound bounty on the

sugar produced. Follow this up

with the anti-trust plan and they

could strike the market with a

treasury for 80 per cent. of the

value of their crops immediately

at the end of the harvest, at the

low rate of 2 per cent. interest,

and it would be a great inducement

indeed, would it not seem to

create large "artificial farms,"

and thus compel the men who now

operate farms to go out of the

business, and hire out to the specu-

lators? These speculators, who

are able to better control prices in

their own interests, had wouldn't

be wrapping the law about their

with so far as the great mass of

the people are concerned?

The Hon. John Young Brown,

our Democratic nominee for Gov-

it. On this point he used the fol-

**The People's Party.**

The People's Party is designed

for the name of the new politi-

cal party organized at Cincinnati

recently, and which has a State

ticket in the field, with Mr. S. B.

Erwin as its head for Governor,

and Mr. W. W. Webster of this

county, as its nominees for State

Senator in this District.

As to the personnel of this ticket

the COMRADE will not have one

word derogatory to any, for these

gentlemen have a clear right to

exercise their independent judic-

iation and action, but to the

movement they are engaged in,

we have none other than words of

condemnation. In Kentucky the

movement has two objects, one of

which is apparent, though at-

tempted to be disguised.

1st.—To rule or ruin the Farmers'

Alliance in this State.

2nd.—To ignore the Democratic

nominees, and thereby attract the

public support and votes.

The COMRADE believes that the

great body of the people are hap-

py, and that honesty in politics

is the best policy as it is in every-

thing else. The so-called People's

party has incorporated the de-

mands of the Farmers' Alliance

as a part of their platform, making

it a political party, and this in di-

rect antagonism to the declared

purpose of the Farmers' Organi-

zation. Herein is seen the manipu-

lation, the trickery of the lead-

ers of this so-called People's Par-

ty in their attempt to drag the

Farmers' Alliance into politics.

It seems that there are two

elements in the Farmers' Alli-

ance in Kentucky—the Erwin

and the anti-Erwin. The latter

is the shape that Mr. Erwin's

friends wish to give it. Mr. Er-

win was the President of the State

Alliance, and the anti-Erwin

is the shape that Mr. Erwin's

friends wish to give it. Mr. Er-

win was the President of the State

**Money Prospects Brighter.**

"The European money markets

are quiet, and the silver sale is

clearing everywhere," says the

great city papers; but the silver

prevents greater hope in that

the great city papers have been

sent to the market for a year or

more, and yet difficulties in trade

and security of money continue

to hang over the country like a

feverish pall. The wheeler now

being harvested will be a great

relief, but it will be sufficient to

restore prosperity, to start trade

and traffic with life and energy.

The prohibition, any that the

silver money will be most useful

in debt-paying, which is all right

and good if the lender does not

again produce the corn, the ent-

ire, or some other product, to

force it into circulation. Will the

leader, the capitalist, turn his

money into investments like build-

ing new railroads and enterprises

that, by keeping thousands em-

ployed, will keep thousands of

dollars in active circulation? If

so, longer time would surely

come to the country in proportion

to that money was put into ac-

tive circulation, but so far as

length and breadth of the United

States there is less railroad build-

ing, more and less money, and

such enterprises that ever be-

lie in the history of this coun-

try. It is a trial of thousands of

millions of railroads have been

projected, showing that the litera-

ture of the country wants and

needs more roads, and yet the

answer from every source is that it

is not expedient to build more

roads, and yet the answer from
